Centurion's Cessna 2009 Grand Caravan 208B

Centurion Flight Services has been providing safe and efficient air charter since 1983.

Your safety and comfort is our number one concern!

The Cessna Grand Caravan 208B is the epitome of versatility ... perfect for people, freight or both. With an advanced anti-icing system, it is capable of flying in most weather conditions. Based in Palo Alto, our Grand Caravan conveniently transports passengers throughout many of the Western states ... typically in California, Oregon, Nevada, Utah, Idaho, Wyoming and Montana. It can take off on relatively short runways, but climb to 25,000 feet, cruise at 184 knots and has a range of 917 nm. The avionics are the best available for

an airplane in its class with a state-of-the-art navigation system and color weather radar.
